The term "City Ditches" shall be taken to include the main ditch and all other ditches and laterals owned and operated by the City as the surface water and irrigation system of the City and the water herein referred to shall include all the water delivered to the ditches under the decreed water rights of the City.

**9-7-2 Diversion of Water Permitted.** Any water user may divert water from the City ditches for domestic and irrigation purposes, subject to the limitations, regulations, and restrictions herein contained.

**9-7-3 Limitations for Diversion; Permit.** No water user shall divert water from the City ditches for irrigating more than five (5) lots of ground, a lot being taken as twenty-five feet by one hundred twenty-five feet (25' x 125') in area, or a tract of land equivalent thereto in area, without first having obtained permission from the Council as hereinafter provided, and if any water user shall apply water diverted from the City ditches to more than five (5) lots of ground without such permission, it shall be conclusively presumed that he is diverting and using more water from the ditches than he is entitled to receive. If any such application be granted, the applicant shall receive a written permit which shall contain a description of the land which may be irrigated under the permit; and thereupon, and before the applicant is permitted to divert any water under the permit, he shall pay to the Treasurer two dollars (\$2.00) for each lot or tract of land equivalent to twenty-five feet by one hundred twenty-five feet (25' x 125') in area or fraction thereof, described in the permit. Any permit granted pursuant to this Section shall lapse on the first day of May following its date of issue. The permit shall be accepted by the water user subject to all the rules and regulations contained in this Chapter, and shall not entitle the water user to whom it is issued to any rights or privileges not enjoyed by any other water user, save and except the right to apply water diverted from the City ditches to more than five (5) lots of ground as described herein.

**9-7-4 Hours When Diversion Prohibited.** No water user shall divert water from the City ditches between the hours of 9:00 P.M. and 5:00 A.M. of each twenty-four (24) hours, and no water user during said time shall leave a floodgate, dam or other obstruction in the ditches; provided, however, any water user may obtain permission from the Council to divert water during said time.

**9-7-5 Use of Waste Water Exception.** Sections 5-9-3 and 5-9-4 of this Chapter shall not apply to water users who take water from the City ditches at the point or places where the City water is discharged as waste water; provided, however, the diversion of the waste water shall be subject to the control of the Council and the rules and regulations contained in the other Sections of this Chapter; and provided further, that the point or places where water is discharged as waste water shall be designated from time to time by the council.

**9-7-6 Manner of Diverting Water.** The water user in diverting water from the City ditches shall divert the water from the nearest ditch to the lot to be irrigated unless it is impossible to irrigate the lot from the nearest ditch; and the water user shall conduct the water directly to the lots or parcels of land to be irrigated and shall not construct ditches or other water conduits, for conducting the water along the streets or alleys of the city without permission obtained from the Council. Any water user making a ditch across the sidewalk shall bridge or pipe the ditch for the full width of the sidewalk.

Water flowing upon the streets, sidewalks or alleys from a City ditch where water is being used or diverted by a water user, or from the private ditches of the water user, or from the land which he is irrigating shall be prima facia evidence of a violation of this Section by the water user diverting the water.

The Chairman of the Ditch and Water Committee is hereby empowered to make suitable orders carrying out any of the powers of the Council reserved and mentioned in this Section save and except any order fixing the time during which water shall be turned off in combating the mosquito pest and any order establishing ditch districts as specified herein. And all water users and their rights to divert water from the City ditches are subject to any and all orders that may be made pursuant to this Section.
